PAYMENT MADE

Breasy is a smart app designed to improve and personalize the purchasing experience from vending machines. Enjoy speedy, secure transactions direct from your smartphone: buy a cup of coffee even when you've just run out of small change and card payment is impossible.

# Breasy, when vending is just an app away

## **Personal dashboard**

Monitor your vending machines and collect data with your dashboard. The dashboard tracks your vending machines' performance and provides data to monitor your KPIs and improve your business, with filters for time, location, machine, payment type, and users.

## **Support and feedback**

The support system ensures fast issues resolution and easy customer feedback. Support requests are quick and easy: operators can review user activity, device details, and issue refunds if needed. Customers can also leave feedback after purchases, helping identify and resolve issues promptly.

## **Closer to your customer**

Know your customers, customize the app and set up your loyalty program. Breasy improves user traceability and profiling, enabling analysis of purchase trends. It supports loyalty programs, personalized promotions, and app customization to enhance customer engagement.

## **Safe, cashless payments**

Receive your money directly on your bank account. Breasy simplifies payments with Apple Pay and Google Pay, reducing cash handling costs and ensuring 100% of revenue is transferred within 48 hours. Transactions use customers' phones' data, enabling offline operation.

## **Optimized transactions**

Payments on Breasy are safe and fast thanks the integration with Nexi and Hi!

Evoca Group has secured favorable interbank service terms, so no bank agreements are needed. The vending machines integrate with Hi! for cashless systems and Nexi for secure, easy, and fast digital payments.

# Hi! & Breasy

Breasy is an app for mobile devices that has been fully integrated with Hi!, the leading-edge system that revolutionizes cashless payments.

 Backup and data retrieval function (integrated IrDA and Bluetooth®), your transactions and day by day activities are even more secure and faster.

 Integrating Breasy with Hi! readers enhances the customer's user experience, ensuring simplicity and effort-free speed during use plus a smart queue management.

 Customized breaks, storage of favourite purchases in its memory, speedy and secure payment, nutritional facts, and much more.

Many advantages for higher quality breaks on a day to day basis and guaranteed customer loyalty. Discover Breasy & Hi! and prepare your company for the future of vending.
